

ENVIRONMENTAL POLICY

Maximus Resources Limited (“MXR” or “Company”) is committed to carrying out exploration and achieving economic development while maintaining the environment.

The Board and employees of Maximus Resources Limited believe that sound environmental performance is essential to the success of our Company.

MXR promotes environmental awareness among Company personnel and contractors to increase understanding of environmental matters.

MXR adopts and adheres to standards that are protective of the environment by integrating environmental factors into planning and operational decisions and processes.

Each employee and contractor will be held accountable for ensuring that those employees, equipment, facilities and resources within his or her area of responsibility are managed in order to comply with this Policy and to minimise environmental risk.

Throughout all phases of our activities, MXR personnel and contractors will give proper consideration to the care of flora, fauna, air, land and water and conserve important populations of flora and fauna that may be affected by our activities.

We assess the potential environmental effects of our activities, and regularly monitor and review our environmental performance.

The Company’s aim is to prevent unnecessary environmental impact and to rehabilitate any disturbed sites as near as practicable to their original condition. It will follow guidelines of Government departments and statutory authorities.

The Company will communicate with the public on environmental matters.

The Company will comply with all legal and regulatory requirements as a minimum standard.
