BRIEF MAXIMUS

PAGE 1 of 1

MAXIMUS RESOURCES **Gold hopes high for** **Spargoville drilling**

Investors with an eagle eye on Maximus Resources will be watching closely the gold explorer's next round of drilling results from the Spargoville project near Kambalda.

Drilling was completed on the Eagles Nest tenement on March 14 after testing the area around the location of the Golden Eagle nugget find in 1931.

Positive results will allow it to look at calculating a preliminary inferred resource.
