## QUARTERLY REPORT

### PERIOD ENDING 30 June 2020

Maximus Resources Limited (ASX: MXR) ('Maximus' or the 'Company') is pleased to provide its Quarterly Activities report for the June Quarter 2020.

#### CORPORATE HIGHLIGHTS

- New exploration programs commenced at Spargoville with a particular focus on previously untested targets near the high-grade Wattle Dam Gold Mine.
- Rights Issue completed with 43,519,005 New Shares issued raising \$1,305,570 (before issue costs).
- Royalty investments continue to advance.
- Appointment of Managing Director, Mr Tim Withers (subsequent to end of quarter).

#### SPARGOVILLE GOLD PROJECT

Subsequent to the end of the quarter, drilling at the Spargoville gold targets has commenced.

The 2,200-metre reverse circulation drilling program has commenced at the S5 and S13 gold targets which lie along the prospective Spargoville Shear and are located immediately north and south of the Wattle Dam Gold Mine (Figure 1). Maximus has identified potential blind, short strike length high grade Wattle Dam type gold deposits close to the historic high-grade Wattle Dam Gold Mine. These targets have similar geophysical characteristics to the Wattle Dam Gold Mine, occurring within flexures in the Spargoville Shear and associated with conductive sediments lying either above or on the flanks of gravity lows.

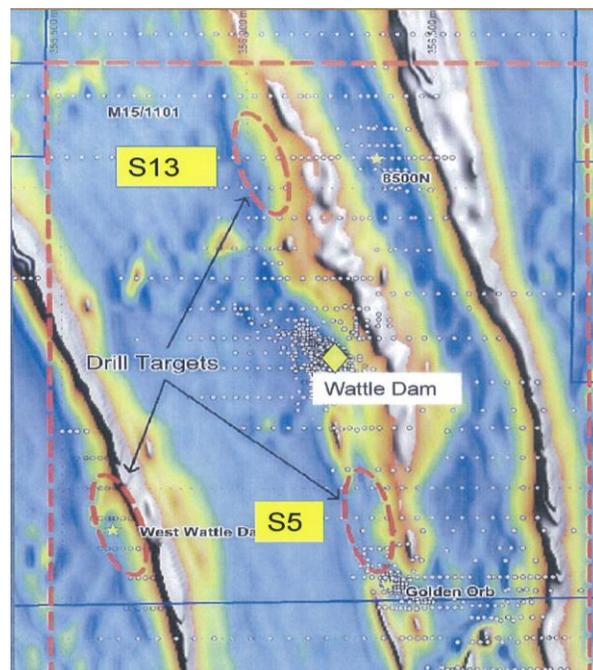

Figure 1: Wattle Dam high priority drill targets, background image is processed magnetics. The S13 and S5 targets referred to in this figure are located 700m north and 400m south respectively of the Wattle Dam Gold Mine

Following the completion of the drilling at the S5 and S13 targets, Maximus plans to undertake drilling at Eagle's Nest and Larkinville to increase resource confidence and test potential extensions to these orebodies.

Maximus has completed pit optimisation studies of the Eagle's Nest and Larkinville Gold Resources using a gold price of AUD\$2,500/oz. The previous Eagle's Nest pit optimisation was run using a gold price of AUD\$1,700/oz. Utilising the increased gold price has resulted in larger and deeper pit designs and drilling will be required to increase the confidence of the expected larger gold resource to achieve an Indicated Resource. It is planned to conduct the drilling after the S5 and S13 drilling, subject to receiving an approved Program of Works.

#### BIRD IN HAND GOLD ROYALTY

*Maximus will receive a payment of \$1.0 million upon the approval of a Program for Environmental Protection and Rehabilitation. This approval is subsequent to the grant of the Mining Lease. Maximus will receive a further payment of \$1.0 million upon the commencement of production. Maximus then receives an ongoing 0.5% royalty payable on bullion production in excess of the first 50,000 ounces.*

The owner of the Bird in Hand Gold Project, Terramin Australia Limited (Terramin), has advised the market that its Mining Lease Application has been submitted to the South Australian Department for Energy and Mining (DEM) for the Project and Terramin remains in dialogue with DEM as part of the approval process.

During the quarter, Terramin released a feasibility study in respect of the Bird in Hand Gold Project which showed that the project is estimated to generate a post-tax NPV<sub>8</sub> of \$141 million with an IRR of 80.5% over approximately 4 years of production. The project's base case projection is to produce an average of 44,700 ounces of gold per annum over four years at low C1 cash cost of \$737 per ounce and an all in sustaining cost of \$959 per ounce, with a pre-production capital cost estimated to be \$54 million.

#### FLUSHING MEADOW ROYALTY

*Maximus will receive a royalty of \$40 per ounce in respect of the first 50,000 ounces of production with \$0.2 million of this royalty prepaid at the commencement of production. Maximus will receive a further royalty of \$20 per ounce in respect of production in excess of 50,000 ounces up to 150,000 ounces. The total amount paid is capped at \$4.0 million.*

The owner of the Flushing Meadow Project, Yandal Resources Limited, has advised that RC drilling for a resource upgrade and expansion has been completed and that a revised mineral resource estimate is pending. A feasibility study including a mining proposal submission is underway and contemplates the construction of a conventional open pit mining operation with road haulage to third-party processing facilities. A diamond drilling program is underway for geotechnical, hydrological and metallurgical assessment to support the feasibility study.

#### COMMERCIAL MATTERS

Maximus has continued to negotiate with a party that owes circa \$340,000 in respect of a toll treatment campaign in early 2019. To facilitate recovery of the outstanding monies, Maximus has commenced legal recovery action.

Maximus continues to have discussions with its insurers in respect of the existing insurance claim of \$600,000 relating to plant & equipment failure at Burbanks Mill.

Resolution of the arbitration with Empire Resources remains outstanding. Maximus has made payment for the agreed gold reconciliation however Empire continues to make a claim for an additional amount payable. The parties agreed to an arbitration process to attempt to settle the dispute. This process

commenced in March 2019 with the appointment of an Arbitrator and remains ongoing. Maximus maintains its position that Empire's claims have no merit.

## CORPORATE

Subsequent to the end of the quarter, Mr Tim Wither has been appointed as Managing Director of Maximus. Tim will commence on the 10 August 2020.

As at 30 June 2020, the Company had cash at bank of \$801,108.

The Company completed a pro-rata non-renounceable rights issue of 1 share for every 1 share held, at an issue price of \$0.03 which closed on 11 May 2020. Maximus received applications for 5,677,136 New Shares, resulting in a shortfall of 37,841,869 entitlements. Applications for entitlements received totalled \$170,314 (before issue costs).

On 26 May 2020, Maximus confirmed it had received binding commitments from sophisticated and professional investors for the shortfall being 37,841,868 ordinary shares which were placed at the issue price of \$0.03 per share and raised a further \$1,135,256 before costs.

The Company had amounts owing to Kevin Malaxos for outstanding leave and back pay. The Company settled these outstanding amounts during the quarter as detailed at item 1.8 of the Appendix 5B.

## SHARE CAPITAL

As at 30 June 2020, the Company had 87,038,009 shares on issue.
